Green. Eco. Organic. Natural. Handcrafted.

## Organicare :: Fresh Fix for that oh so uncomfortable sun sore skin

*from release*

Take **Fresh Fix** on your trip this summer and use it as a refresher on the plane and on the beach. If, heaven forbid, you get sunburned, whip out Fresh Fix to alleviate the painful effects of your burn and do so knowing that Fresh Fix bears the USDA certified organic seal ensuring purity and safety.

Fresh Fix's fine mist instantly cools and soothes skin with aloe and lavender while putting to work the anti-inflammatory properties of chamomile. Coconut, ginseng, and cocoa condition while vitamin A and St. John's Wort combat flaking and restore suppleness to the skin.

**Organicare**, the next generation in skincare, is a completely USDA-certified organic line of performance skincare. **Fresh Fix** retails for \$29.50.
